

Drive achievement with a vast array of **ONLINE COURSES**

Expand student options and empower opportunity

Edmentum offers comprehensive online courseware that is based on real-world skills and aligned to state and national standards. Our rigorous and engaging content is designed to meet each student at his or her proficiency level through the use of media-rich and interactive experiences.

Online courses open up a world of content, interactive activities, and flexible implementations for students and educators. Our online courses present a “learning by doing” philosophy designed to be a personalized experience. We are committed to meeting the needs of diverse student populations by helping create successful student outcomes everywhere that learning occurs.

Our online courses support learning by providing:

- Unparalleled flexibility and customization of state and nationally aligned standards to meet educators’ needs
- Effective tools that deliver data-rich analytics that measure growth and identify learning patterns
- Practical student tools that facilitate relationship building with teachers
- An intuitive, easy-to-use learner interface that empowers students to monitor tasks and progress

“ Courseware’s ability to differentiate instruction for every student has made a real and measurable difference for us. Success breeds success—when students struggle in something and then start to have success, they want to keep going. Courseware is helping our students say, ‘I can do this!’ **”**

— Scott Douglas, Principal
Lakeville South High School, MN

Offer engaging online courses that drive student learning

First-time credit

- Expand learning beyond the traditional classroom, including core curriculum, World Languages, Career and Technical Education, and courses for use with the Advanced Placement®* exams
